Bryan Abi Karam

2nd year CompSci (bca35)

Internet Officer

What I have done:

- An unbelievable amount of tinkering with tech (CompSci!)
- Worked as a software developer in industry.
- Developed the Downing May Ball 2025 website as Webmaster.

What I will do:

- Work with the current Internet Officer to ensure a smooth transition and continuation of their hard work.
- Continue to develop JCR services to improve usability, reliability and durability.
- Augment the ballot process to better inform your decisions about the room you'll pick.
- Make the ballot more flexible by allowing for easier room swaps.
- Continue to adjust room banding and pricing to more accurately reflect the quality of accommodation.

"Tech that serves you!"
